Abstract

This is a template. You should write your abstract here. The abstract is a brief summary of your project. It should be no more than 200 words long and should state the problem, the methods used, the results, and the conclusion.

Contents

1 Introduction **1**
1.1 Research questions 1
1.2 Research gaps 1

2 Methodology **2**
2.1 Dataset Collection 2
2.2 Approach 3

3 Results **4**

4 Conclusion **5**
4.1 Future Work 5

1. Introduction

This is a template. You should write your introduction here. The introduction should provide background information on the topic of your project, state the problem you are trying to solve, and outline the structure of the report.

1.1 Research questions

Here you should state your research questions.

1.2 Research gaps

Here you should describe the research gaps that your project is addressing.

2. Methodology

This is a template. You should describe your methodology here. This section should explain the methods and techniques you used to conduct your research.

2.1 Dataset Collection

Describe the dataset you used for your project. Include information about the data sources, the size of the dataset, and any preprocessing steps you performed.

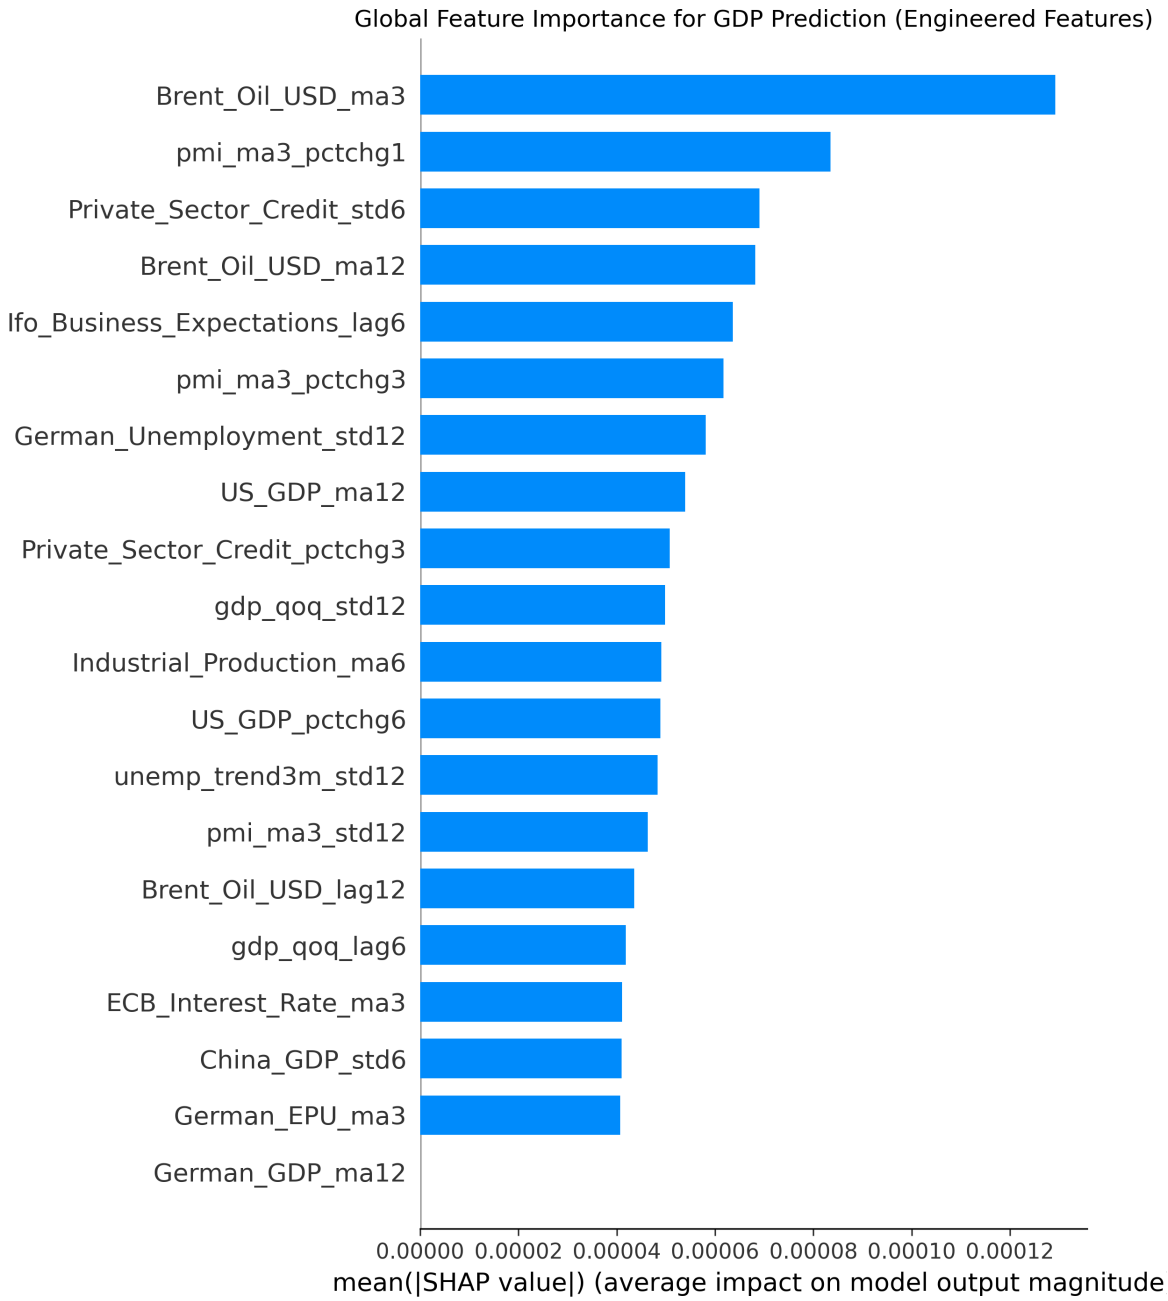

Figure 1: Example of a figure.

2.2 Approach

Describe the approach you took to solve the problem. Explain the models you used, the algorithms you implemented, and the evaluation metrics you used to measure the performance of your models.

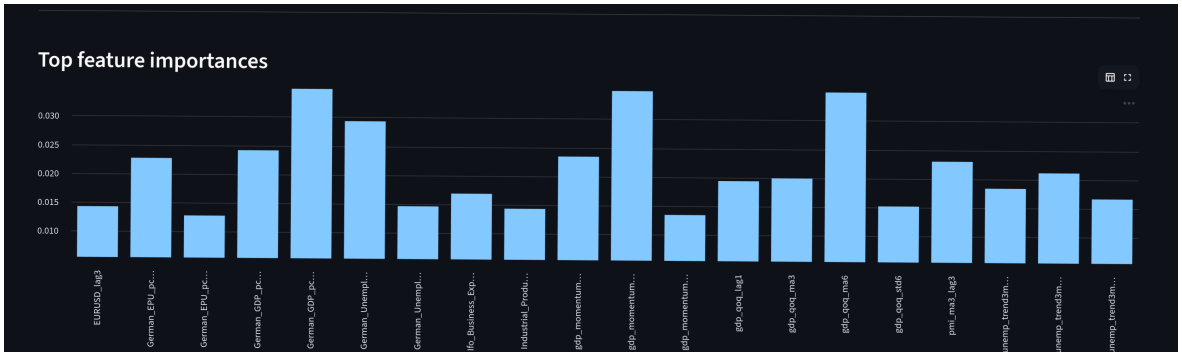

Figure 2: Example of another figure.

3. Results

This is a template. You should present your results in this section. Use figures, tables, and graphs to visualize your results.

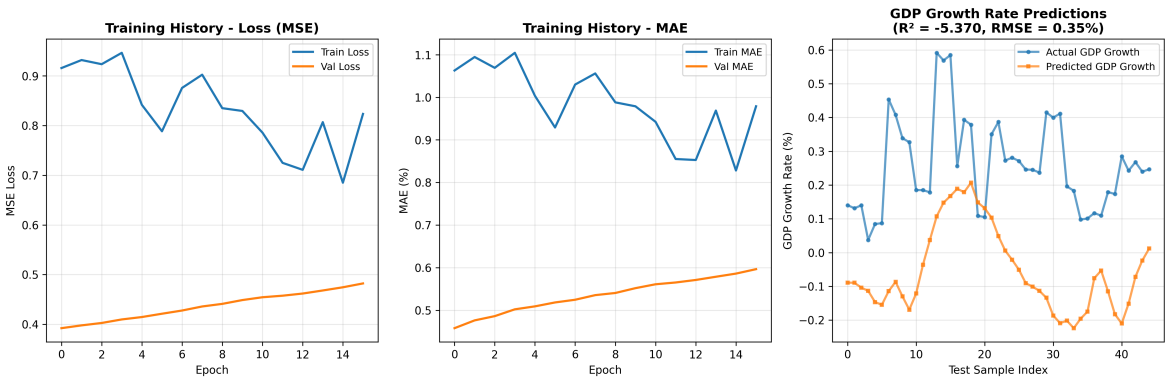

Figure 3: Example of a results figure.

4. Conclusion

This is the place for the project conclusion

4.1 Future Work

Future work must be described here.
